

Merry Mayhem's Case #120

PART 5:

You are now ready to sew the units you have just made into little blocks (yippee!!).

Again, keeping each set of Light and Dark fabrics together, sew the units into a 4-Patch as shown at right.

Press seam allowances in the direction of the arrows.

You should now have a total of 24 blocks if you are making the Crib size project; (48 blocks) if making the Lap-size; [80 blocks] if making the Twin size; OR {168} if you are making the Super Queen size. Each block should measure 8 1/2" square.
